

Providing cost-effective, high-speed color printing solutions

IBM Infoprint Color 1354 and IBM M30 MFP Option

Highlights

- **Prints at up to 20 ppm, color or monochrome, with 2400 image quality**
- **Provides true 1200 x 1200 dot-per-inch (dpi) resolution at up to 10 ppm, color or monochrome**
- **Offers simple maintenance features for ease of use**
- **Helps protect printer investment with a multifunction option**

The IBM Infoprint® Color 1354 is a high-value workgroup color printer that provides high-speed printing for both color and black-and-white jobs. This printer's outstanding performance, reliability and fast page delivery can help workgroups become more efficient.

Printing color fast for improved productivity

The Infoprint Color 1354 provides excellent color quality at print speeds of up to 20 color or monochrome pages per minute (ppm). This high

print speed—for both color and black and white—can help you improve productivity by significantly reducing bottlenecks and the time spent waiting for jobs at the printer. And the printer can produce black and white jobs at a cost per page comparable to most monochrome printers.

Delivering exceptional print quality

PCL 6 and PostScript® 3™ emulations are standard on the Infoprint Color 1354. The printer's 2400 image quality can produce high print quality while using less memory for faster processing—allowing you to quickly and cost-effectively make short-run productions of brochures, flyers and reports. And you can achieve 1200 x 1200 dpi resolution at speeds up to 10 ppm—providing excellent print quality faster than most printers in its class. Automatic toner patch sensing helps deliver superior print quality and consistent color output.

Providing simple, flexible features

Front-loading, single-element print cartridges are easy to install, allowing the user to replace supplies without maintenance assistance. Optional 15,000-page high-yield cartridges can help limit the number of user interventions and printer downtime. The printer offers a variety of optional paper handling features, such as a 2000-sheet drawer, auto duplexing and a 3000-sheet finisher that includes stapling, hole-punch and job offset capabilities. Plus, it features three levels of monochrome and color toner savings, as well as a monochrome lock-down capability to control access to color printing.

Leveraging your investment with multifunction capabilities

You can add full-function copy, fax and color network scan capabilities—as well as send documents via fax and e-mail—when you upgrade the

Infoprint Color 1354 with the IBM M30 MFP Option. The M30 features an easy-to-use color touchscreen interface and enhanced image processing, and integrates easily with the Infoprint Color 1354 to help simplify demanding workflow requirements. An enterprise directory look-up feature enables quick e-mail and faxing activities.

The M30 provides monochrome and color single-pass duplex scan capabilities and can help increase productivity, improve processing times, reduce costs and optimize device and space utilization. Optional document distribution software—that integrates into your workflow process—can help reduce manual tasks by automating complex document workflow activities, such as routing, indexing and archiving. And consolidated supplies for printing, copying and faxing can help reduce costs, user intervention and stock management.

Relying on world-class service

With IBM service, you receive high-quality, reliable support from experts with comprehensive knowledge of IBM printers, software and supplies. Next-day 9x5 and same-day 24x7 service offerings are available on all IBM printers in the U.S.

Competitive financing options from IBM Global Financing

IBM Global Financing offers some of the industry's most competitive rates for a wide range of IBM products and services.

Increase efficiency and leverage printer investment by upgrading the Infoprint Color 1354 with the IBM M30 MFP Option. Photo also includes the available duplex unit, additional 500-sheet drawer, scanner shelf and printer stand.

IBM Infoprint Color 1354 printer at a glance

Maximum speed (up to)¹	Print: 20 ppm, color or black and white	First-page-out: as fast as 17.5 seconds		
Technology/processor	Laser/500 MHz RISC (base model), Laser/600 MHz RISC (n and dn models)			
Maximum monthly usage²	85,000 pages			
Print resolution	2400 image quality, 1200 x 1200 dpi (at up to 10 ppm), automatic color correction			
Memory (standard/max)	128 MB/512 MB			
Paper handling	Input capacity 600/3,100 sheets (std/max)	Input sources 2/5 (std/max)	Output capacity 250/3,900 sheets (std/max)	Output destinations 1/7 (std/max)
PC interfaces (standard)	Parallel, USB, one internal solutions port (base model) USB, 10/100BaseTX, one internal solutions port (n and dn models)			
Printer attachments (optional)				
Internal	Ethernet 10/100BaseTX; Token Ring; Twinax/Coax adapter for SCS; Serial interface card, Parallel interface card, Wireless Ethernet (802.11b)			
External	Ethernet 10/100BaseTX—1 port or 3 port; Ethernet 10/100BaseTX and 10Base2—1 port; Token Ring—3 port; Infrared adapter; Serial adapter			
Application solutions	Intelligent Printer Data Stream™ (IPDS™) ³ , ImageQuick, Optra Forms, Bar code card			
Physical characteristics	23.8" (W) x 18.5" (D) x 20.8" (H)		105 lbs (weight)	
Toner yield⁴	6,000-page starter cartridge; 15,000-page high-yield toner cartridge			
Cost-saving and environmental features	IBM return program print cartridges; high-yield print cartridges; monochrome lock-down capability; optional duplex printing; three levels of toner saver			
Warranty	One year, 9x5 next-day onsite repair (upgrades are available).			

¹ Exact speed varies depending on document complexity, system configuration, software application, driver and printer state.

² IBM does not recommend printing this monthly maximum on a consistent basis.

³ Only monochrome output is supported.

⁴ Assumes 5% toner coverage per page. Toner yields are provided for planning purposes and are not a guarantee of minimum life; actual yields may vary.

IBM M30¹ MFP Option at a glance

Document handling

Automatic document feeder (capacity/max speed²) Up to: 50 sheets/23 ppm letter black
14 ppm letter color

Console type Touchscreen

Maximum scan size Legal (8.5" x 14")

Input Duplex (single pass)

Scanning capabilities

Scan file formats JPEG, TIFF, PDF, PostScript

Type Color and monochrome

Maximum optical resolution 300 x 300 dpi

Scan destinations/archiving FTP server, workstation, e-mail

Fax capabilities

Maximum fax resolution 400 x 400 dpi

Modem speed 33.6 Kbps

Receive fax Yes

Send hard copy fax Platen or automatic document feeder

Send soft copy fax From PostScript print driver at workstation

Memory send Yes

Internal faxing (scan to FTP) Yes

Fax-server integration Biscom, Equisys, Omtool, RightFax

Physical characteristics³ 33" (W) x 21.5" (D) x 12" (H) 26 lbs (weight)

Warranty One year, next-day IBM onsite repair (upgrades are available).
